Providing Choices in Complimentary Health Care
Gentle Chiropractic Therapy – Acupuncture – Rehabilitation –
Low Level Laser – Nutrition

May Is Our Anniversary 31 Years of Service To You

It's amazing how time flies. Another year has come and gone and I am enjoying the opportunity to provide to you, my patients, as much as I ever have. In the past year, I have taken advanced courses in TMJ (the jaw joint) disorders, rehabilitation, Activator Methods (manipulation protocols), lower level laser, as well as continuing with Functional Medicine training. Not only do I enjoy the challenge of learning new topics but each class gives me additional tools to help you, and that's what it's all about. Yes, it's all about you and we can say that without feeling guilty. My staff and I constantly try to make your experience at our office one that makes you feel welcome and that you are getting the help and healing you desire.

Anniversaries are a time of celebration and this year is no exception. People always like to get out for a night of dining and each May we have chosen distinctive restaurants and given certificates for a night on the town. This year we will award four dining packages, one each to **Pepper Sprout** in downtown Dubuque, **Fried Green Tomatoes** in Galena, **Star Restaurant** at the brewery and **Timmerman's** in East Dubuque. All these fabulous establishments are sure to entertain your taste buds with great food. Every time you are in the office for an appointment through May 31, you will be entered into the drawing. If you don't need to see me, just stop in, sign up and wish us a happy anniversary. Good luck on the opportunity for a night on us.

Announcing Our New Web Site

www.weberchiro.net

We have joined the information age on the internet. This new web page will give you or anyone curious about our services and philosophy of care, an overview of our services and the conditions that we treat on a daily basis. There are detailed explanations of the treatments that we offer, including: acupuncture, auriculotherapy (ear acupuncture), low level laser, physiotherapy, Cox decompression manipulation and functional rehabilitation. There is also a conditions page that allows you to click on a problem area and find solutions that we recommend. You can also find out more about my training and certifications in various disciplines. The web site was designed to help current and potential patients, get to know our office in a more complete way so they can take advantage of our wide range of options in complimentary health care. So many times, a chiropractic office is thought of as a place for back and neck pain, when we can offer many solutions for knees, ankles, shoulders, disc problems, carpal tunnel, elbows and even stomach problems such as reflux and intestinal problems. We are here to help you and sometimes the only barrier is knowing where to find help so explore your options on the web site. You can also view our past newsletters on the new and improved www.weberchiro.net.

***Again, thank you for being our patient!
We appreciate you and look forward to serving you.***
